# INTRODUCING ACTIV8®

ACTIV8® by market leaders Imagination Play, are proud to introduce the very best in outdoor fitness equipment. Turn any outdoor space into a hub of COVID safe activity, by continuing to support your community's outdoor exercise needs. Our new range is the culmination of more than 20 years experience designing imaginative spaces for the great Australian outdoors. It's safe, durable and accessible for all fitness levels.

## BENEFITS

- Designed to meet the needs of all fitness levels.
- Designs are inclusive and community focused.
- Bring together fun and fitness that is accessible for all.
- Inspires community health and vitality.
- Continue COVID safe outdoor exercise trends.
- Designed and made in Australia, for the Australian outdoors.
- Safe, durable and easy to use.
- Low maintenance.

# ACTIV8<sup>®</sup> FEATURES

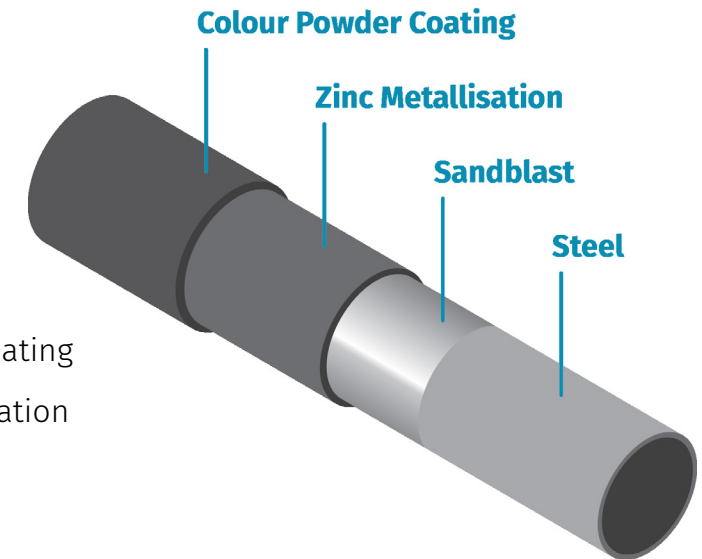

- New technology for durable, weather proof surfaces guaranteed for the great outdoors.
- Modular components designed to fit any space, with flexible options for free standing or wall mounted equipment.
- Hand-finished, sustainably sourced, Australian hardwood timber post option aesthetically compatible with our Nature Play Range.
- Meets new Australian standards AS 16630:2021
- QR code signs with videography instructions for all.

## ADVANCED NEW TECHNOLOGY

Innovative Zinc Metallisation Process.

- Rust proof
- Low maintenance
- Anti-vandal
- UV protected
- Thick 70 micron coating
- Complete metallisation after welding

## FLEXIBLE OPTIONS

**STEEL POST**

**TIMBER POST**

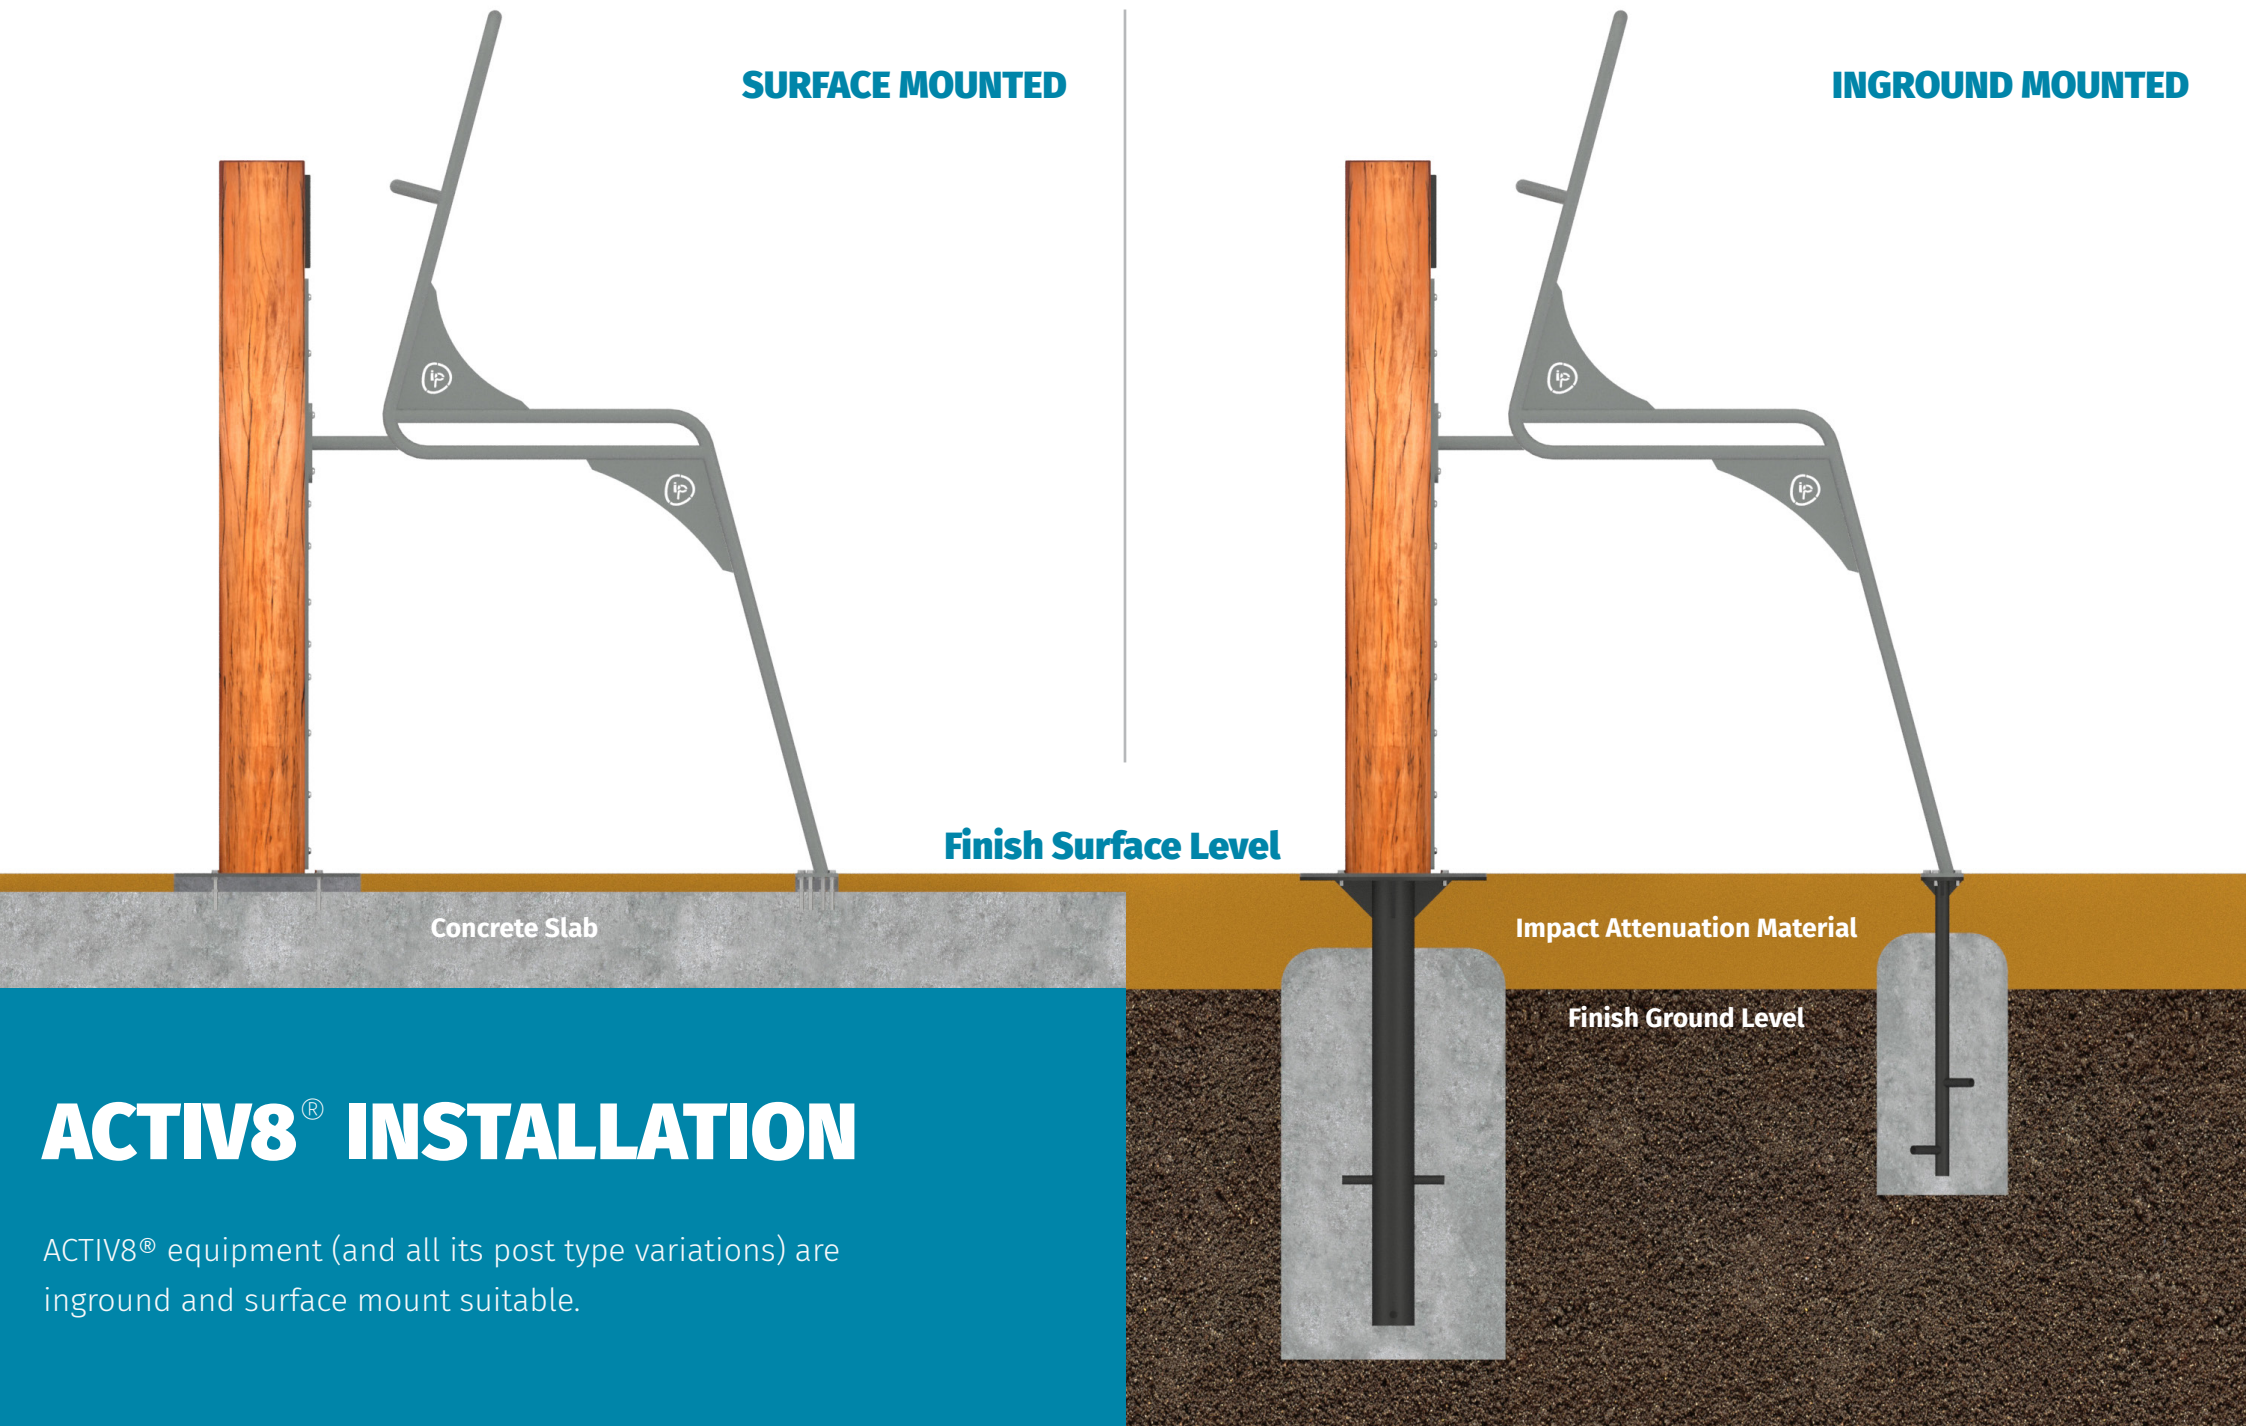

**WALL MOUNT**

## SURFACE MOUNTED

## INGROUND MOUNTED

# ACTIV8<sup>®</sup> INSTALLATION

ACTIV8<sup>®</sup> equipment (and all its post type variations) are inground and surface mount suitable.

# EQUIPMENT CONFIGURATIONS

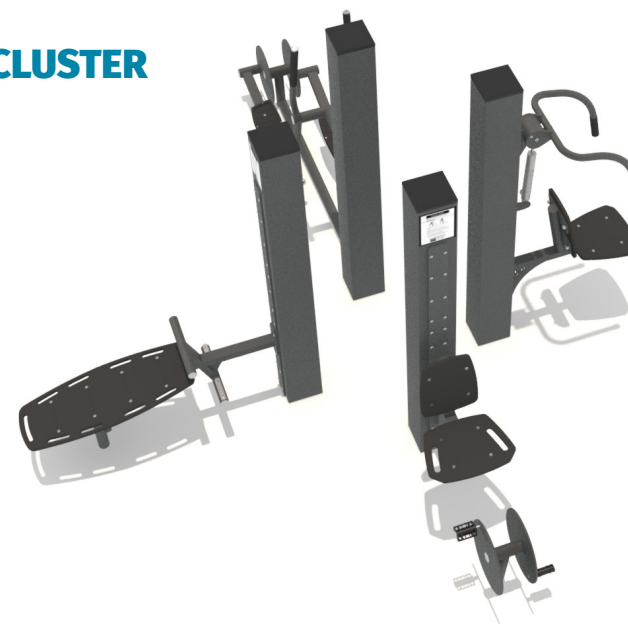

**SINGLE**

**DOUBLE**

**CLUSTER**

## RESISTANCE MECHANISMS

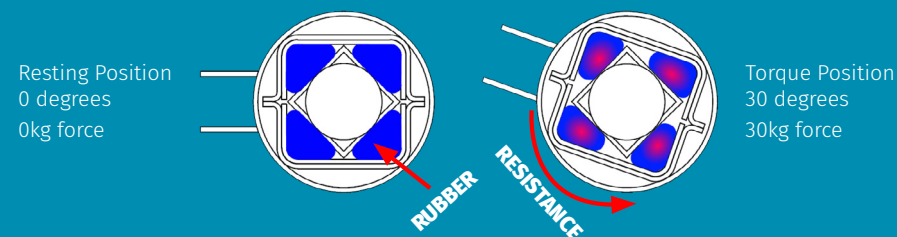

### RSX RESISTANCE

Our specially designed Rubber Suspension Axis (RSX) system is designed to provide resistance on a curve. The harder you work, the harder the RSX system works against you, providing up to 30kgs of resistance and maximum deflect angle. The RSX system is ideal for all fitness levels.

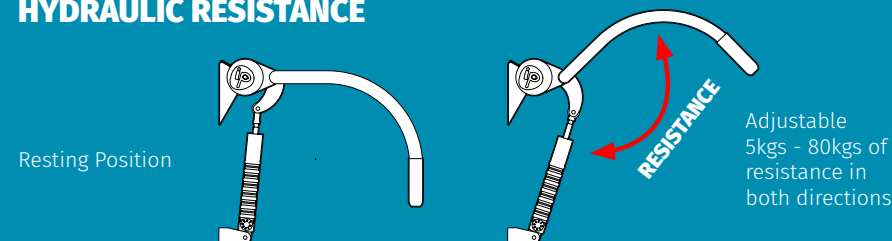

### HYDRAULIC RESISTANCE

The hydraulic resistance system is fully adjustable, able to provide between 5kgs - 80kgs of resistance. This piston is available with the rower and the shoulder press. The hydraulic resistance system is ideal for those with a higher fitness level.

### RSX SYSTEM

### HYDRAULIC RESISTANCE

# INSTRUCTIONAL SIGNAGE

Weather and vandal proof instructional signs are provided with each equipment item. The signs come with fitness icons and muscle groups to indicate the area of fitness the equipment relates to. Each sign also comes with detailed written operational instructions and pictographics.

A QR code on each sign also links to a video demonstration, provided by Sophie Hennessey, VNL star for the Peninsular Waves.

# PLACES AND PEOPLE

ACTIV8® is just like the gym, only outdoors! Suitable for ages 12 and over, there are equipment options to suit all fitness levels. We work with our clients to design outdoor fitness spaces like no other.

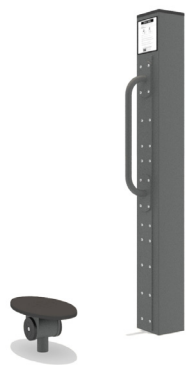

- Parks and recreational reserves
- Councils and local government
- Landscape architects
- Commercial and residential spaces
- High schools, TAFE and other educational facilities
- Holiday parks and accommodation venues
- Correctional facilities
- Aged care facilities

# FITNESS EQUIPMENT ITEMS

## Wiggle Board - RSX Resistance

**Description:** Adult size platform, with RSX load axis, able to generate 30kg resistance at maximum deflect angle. Internal 10mm stopper disks.

## Air Walker

**Description:** Adult size dynamic air walker, internally stopped at <55 degrees with nylon dampers.

## Sit-up Bench

**Description:** Adult size, stationary, sit-up bench.

## Rower - Hydraulic Resistance

**Description:** Adult size rower. Dual side resistance with adjustable hydraulic cylinder, providing 8 levels of resistance between 5KG - 80KG. 5-year warranty on high grade, alloy piston.

## Torso Twister

**Description:** Adult size dynamic torso stretch disk. Maximum 220 degree turn limit. 6 spring loaded Teflon resistance bearings.

## Elliptical Trainer

**Description:** Adult size elliptical cross trainer. 12mm flywheel with double spring-loaded Teflon resistance bearings.

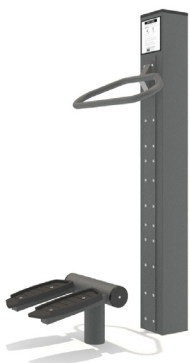

# FITNESS EQUIPMENT ITEMS

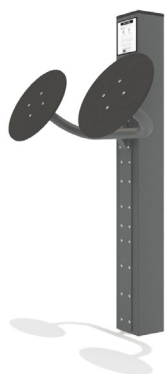

## 3 Way Step-up Station

**Description:** Adult size, 3 level jump station, with 350mm, 450mm and 600mm height. High grade PE landing platform with extra ridges for non-slip protection.

## Stepper - RSX Resistance

**Description:** Adult size stepper. Double RSX load axis, which generate 30kg resistance at maximum deflect angle. Internal 10mm stopper disks and radial stability bearings.

## Fitness Wheels

**Description:** Adult size fitness wheels with 6 spring loaded Teflon resistance bearings and large wheels made from high grade PE panels.

## Push-up Station

**Description:** Adult size, stationary, multi-level push-up station.

## Shoulder Press - Hydraulic Resistance

**Description:** Adult size shoulder press. Adjustable hydraulic cylinder with 8 levels of resistance between 5KG - 80KG. Internal stopper and safety shock protection. High grade alloy piston.

## Shoulder Press - RSX Resistance

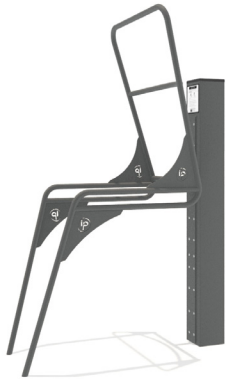

**Description:** Adult size shoulder press with push/pull resistance. RSX resistance up to 30KG at maximum deflect angel.

# FITNESS EQUIPMENT ITEMS

UPPER STRENGTH

## Chin-ups / Dips Station

**Description:** Adult size, stationary chin-up/dips station.

LOWER STRENGTH

## Leg Press - RSX Resistance

**Description:** Adult size leg press, with RSX module providing up to 30kg resistance at maximum deflect angle. Stainless steel cover for wear and tear on high traffic foot rest.

LOWER STRENGTH

## Magneto Cycle

**Description:** Adult size bike, with 8 levels of adjustable magnetic resistance. LED panel, 9v wireless charging and 5v USB charging port, LCD display showing speed, time, calorie and distance.

LOWER STRENGTH

## Flywheel Cycle

**Description:** Standard cycle, with 12mm thick flywheel, and double spring loaded Teflon resistance bearings.

## OUR PROCESS

### STEP 1 Free design consultation

Discuss your proposed site, and talk through the aims of the project with your consultant. Our team will then develop a 2D & 3D design.

### STEP 2 Manufacture

Once you are happy with your chosen design, we will then manufacture your order according to the highest quality standards.

### STEP 3 Deliver & Install

Your equipment will be delivered to your chosen site. We will then liaise with you regarding site installation and oversee the process.

# NINJA WARRIOR COURSES

## FITNESS MADE FUN!

**NITRO**  
Large ninja style course

**CODE: 4641412**

Ages: 6-12  
Events: 13  
Customisable: ✓

### AREAS

Soft Fall Area: 283m<sup>2</sup>  
Boundary Length: 67m  
Playground: 20m x 15m  
Height: 3m

**IGNITE**  
Starter ninja style course

**CODE: 4641411**

Ages: 6-12  
Events: 9  
Customisable: ✓

### AREAS

Soft Fall Area: 195m<sup>2</sup>  
Boundary Length: 62m  
Playground: 24m x 9m  
Height: 3m

**COMPACT**  
Ninja style course to suit narrow spaces

### AREAS

Soft Fall Area: 218m<sup>2</sup>  
Boundary Length: 95m  
Playground: 43m x 5.5m  
Height: 3m

Ages: 6-12  
Events: 9  
Customisable: ✓

## NINJA FOR SCHOOLS

- Specially designed for ages 6-12, with adaptations for building confidence and providing a challenge.
- High quality materials backed by up to 20 years warranty.
- Enormous health and mental wellbeing benefits for kids.
- Increases kids engagement with physical activity by bringing fun and fitness together.

# TESTIMONIALS

## Eildon Riverside Holiday Park

"A very high quality product with excellent service and installation. We are extremely happy with the final product. We will be sure to use Imagination Play again in the future."

### Kathleen McMahon

"Wonderful business to deal with. Organised and efficient delivery and installation of a fantastic equipment that will be well used by all students and staff. Love it! Love it! Love it! Thank you again for a smooth and seamless installation."

### Paul and Susan Baldock

"Imagination Play were very helpful and professional with the delivery and installation of our playground many kilometres from their base; they assisted us matching instalments to grant portions through a complicated grant process and through varied installation timings due to covid. They are a friendly, courteous team."
